## Specification:

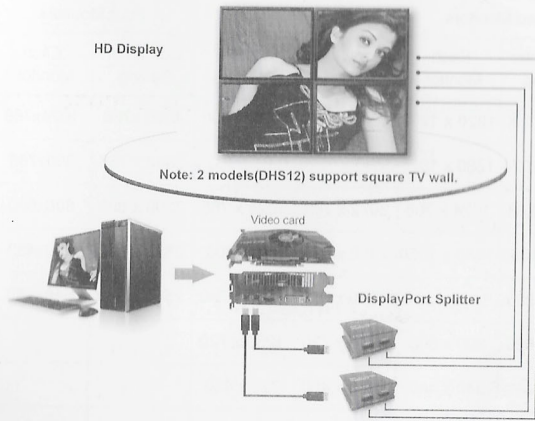

Model	DDS13	DDS14	DHS12	DHS14
Description	DP to DP	DP to DP	DP to HDMI	DP to HDMI
Input Connectors	DisplayPort x 1			
Output Connectors	DP x 3	DP x 4	HDMI x 2	HDMI x 4
Port Selection	3	4	2	4
Power Adapter	5V 2A	5V 2A	5V 1A	5V 2A
Housing	Metal			
Transmission Distance	3M for full bandwidth			
Operating Temperature	0~40° C			
Storage Temperature	-20~60° C			
Humidity	0~90% RH Non-Condensing			
Dimension(mm)	145 x 65.2 x 25		77 x 64 x 25	145 x 65.2 x 25

### Note:

- ◆ If your device can't play the video, please check these points listing below for your reference:
  1. The first connector to the DHS / DDS series products have to support the resolution 1920 x 1080P.
  2. Because OS of Windows itself have the max limited of the resolution, it will be problem to show all the view as you use 4x4 or more receiver.
  3. As the system is set up ready, and you add new receivers on, please re-open all the power to do the handshake again.
  4. HDMI has its own resolution limited. If you can't find the resolution for all the receiver, you might use VGA or DVI to get more resolution to work first.
  5. If you still can't find higher resolution to support your receiver, we suggest you adjust the lower resolution for all first, and higher to the max.
